. The mechanism we have proposed requires the bubble to form and then break quickly to allow the formation of the crack. The bubble has an external pressure forcing it to rise, and when the bubble reaches a critical point the bubble collapses forcing a crack to form. Since the Victorian era, the streets of the City of London have borne the brunt of religious persecution. St Paul's Cathedral, along with the headquarters of the Roman Catholic Church, was destroyed during the Blitz in 1940 and has been rebuilt on a much smaller scale. In more recent times the Knights Templar and other religious orders have been suppressed, while many Protestant and Catholic churches have closed or been converted to other purposes. However, a visitor arriving in the City today will find that the defining presence of faith is not a patch of ground but the City's finance sector, where its great and powerful may still be found among the beautiful old churches and cathedrals. Many of the City's churches and chapels were first established to help the poor and dispossessed, and many still play an active role in social justice. Some were set up to serve the needs of a particular occupational group, such as doctors or brewers. But churches also became places for people to worship God in a different kind of society than existed under medieval kings, and one that was all too ready to lock them up for their beliefs. The story of the City of London The City of London is the smallest incorporated area in England, smaller even than the Isle of Wight. It is still a self-governing area within the UK, but its tax base is largely made up of the City's financial sector, which employs about 125,000 people, and attracts around £6bn of investment every year. Although it had been granted a Royal Charter in the year following the Norman Conquest, in 1065, the City's place in English history was actually shaped by its ability to manage its own affairs in the 13th century when it resisted attempts by the King to govern it through the Exchequer. At that time, the City was governed by its own Corporation, and this gave the people of the City the right to elect a Mayor of the City who could then act as a spokesman for them and bring the City's affairs up to date. The election of the first Mayor, Henry FitzAlan, who died on the way to the Tower, in 1240 was disputed, and it took 12 years before a 82157476af
